Vintage model

Derek Hughes Signature series limited to 100 pairs

3 way Woofer 8`` -Tweeter – Super Tweeter.

Developed originally for the Royal Opera House, the SYSTEM3D offers the same neutrality and transparency as our BBC-licensed loudspeakers, but at much higher sound pressure levels. This is a system that is at home in the recording studio, or in a high end hi-fi setup in a large listening room. Extremely high levels of openness and delicacy are combined with an astonishing dynamic performance. Remarkably, this performance level is achieved using a conventional passive configuration, but one that is able to be used with amplifiers rated at up to 1000 watts per channel.

Specifications VOTU `VOICE OF THE UNIVERSE`
