HIFI-TUNING made in GERMANY

HI-FI TUNING - NEW CRYOGENIC -3 TREATED FUSES

Hand made in GERMANY

** Οι ασφάλειες της **HI-FI Tuning** είναι υψηλής ακριβείας στο ρεύμα, τηζης και οι T (Time lag) ισοδυναμούν με Fast του Εμπορίου και οι F (Fast blow) ισοδυναμούν με Ultra Fast του Εμπορίου. Προσοχή στην επιλογή της κατάλληλης ασφάλειας γιατί σε μερικές συσκευές Hi-Fi με μεγάλους Τοροειδείς Μετασχηματιστές και μεγάλους Πυκνωτές τροφοδοσίας, μπορεί να καούν στο 1ο αναμμά της συσκευής λόγω υπερβολικού ρεύματος εκκίνησης (**Inrush current**) & πρέπει να επιλεχθούν την αμέσως μεγαλύτερη τιμή.

CERAMIC FUSE COMPATIBILITY

We have found that some equipment with no inrush protection will destroy Ceramic body fuses.

It is recommended that a potential fuse customer first try a stock ceramic body fuse before replacing with Hi Fi Tuning Fuse.

IMPORTANT NOTICE: A blown fuse is NOT the sign of a defective item – they are designed to do just that. We suggest that each customer test any fuse purchased for continuity, before installing in their gear, to ensure it is intact upon arrival. Also, given the cost of audio-grade fuses, it may be prudent to slightly uprate the Amperage, to ensure that these expensive fuses do not blow prematurely. Remember, a blown fuse is not covered by any manufacturer's warranty.

World's First Supreme³-Diamond Fuses & Holder, of course 100 % Handmade in Germany.
